OUR TEAM

We have a team of professionals with experience and passion at serving you better. Our supportive staff believes that togetherness and coordination in carrying out different tasks is key to proper service delivery as it encourages sharing of ideas thereby increasing efficiency

OUR SERVICES

GENERAL SUPPLY

Fields enterprises prides itself on honest, reliable and excellent customer service, treating each customer with the highest level of personal attention, professionalism and confidentiality.

At Fields we believe no project is too big or too small for our team, we always deliver at your door step.

Our services are centered around three value-adding principles: We Source, We Supply, We Support.

We provide the market with high quality General Supplies. We help ease the frustrations of sourcing and procurement of hard to locate products for various sectors of business and industry in Uganda. With our network of contacts we are able to locate & supply any product quickly, including locally and nationally stocked products. We are dedicated experts in the sourcing and supply of specialist and hard to locate materials in sectors such as office supplies & building supplies.

1. FIRE EXTINGUISHERS

All our fire extinguishers are certified to international standards.

A) WATER FIRE EXTINGUISHERS

Designed for universal use against class A rated fires of solid matter such as wood, paper, straw, coal and textiles. Typical applications include offices and general industrial uses.

C) POWDER FIRE EXTINGUISHERS

Suitable for use on Class A, B and also Class C type fires involving flammable gasses such as propane and butane and also highly effective for electrical hazards.

B) FOAM FIRE EXTINGUISHERS FOAM SPRAY EXTINGUISHERS.

Ideal for multi-risk situations where both Class A combustible materials and Class B flammable liquid risks are likely to be found, or where Class B risks present a direct hazard. Foam spray extinguishers are especially suitable for Class B fires involving flammable liquids such as oils, spirits, greases, fats

D) Co2 FIRE EXTINGUISHERS CARBON DIOXIDE EXTINGUISHERS

For fires involving flammable liquids and electrical hazards. The non-corrosive and non-conductive qualities of CO2 make it an ideal choice for dealing with fires involving electrical equipment and machinery.

2. FIRE SUPPRESSION SYSTEMS

We provide and install all types of fire suppression systems, from kitchen fire suppression systems to server room fire suppression, we design and install to the requirements specified by our clients.
